In the absence of discovering any crookedness in the Democratic Administration, the Republicans are kept very busy in attempting to keep hidden the misdeeds of their own appointees. Farmer, for one instance.

Judge David S. Terry of California was shot and killed in a hotel of that state on the 14th inst., while in the act of striking Judge Field of the same state, by a Deputy U. S. Marshal. The trouble grew out of the notorious Sharon vs. Sharon lawsuit. Sarah Althea (Mill or Sharon) had sued the Sharon estate for the wife's portion, but was ruled against by Judge Field. Judge Terry was Sarah's counsel and while so became her husband. The decision exasperated both wife and husband and their conduct in court caused them each to serve a jail term. This woman has had a varied and public career for several years. She was reared in the family of Judge Isaac Hunter of Scott county, this state. But early refused good counsel and took up the oars to paddle her own canoe. The country will hear more of her.

Maysville, Ky., Aug 13, 1889.—Miss J. R. Parke, Maysville, Ky.: Hearing that you contemplate leaving our city, I have seen a few of your friends, who wish to express their regret at such a move on your part and the high appreciation they felt at the great good you have done during your residence here, in the education and training of their daughters and relatives, the elevated character you have given to their lives, and the refined social influence you have had in society.

Wherever you may go—wherever you may be placed in school life, you have the best wishes, the God-speed of your friends, patrons and schoolers, who have known you long and well, and they hope that you may enter into the lives of your new charge as you have so pleasantly and profitably done here.

Among the legion of your friends permit me to subscribe myself one of the best, John P. Pfister.

P. S. Hundreds of names could have been procured to the paper I send you if a little more time could have been given to it, or it had been thought at all necessary.

To whom it may concern: We have known Miss J. R. Parke for many years, some of us ever since she has been teaching in Maysville, Ky. We have had the most ample opportunities of thoroughly acquainting ourselves with her fitness as an educator, and we take great pleasure in bearing testimony to her capacity as a teacher, her firmness as a disciplinarian and the elevated tone she gives to her school. She has the benefit of an enlarged education, of years of experience as the principal of a female institution, and the association with a corps of Professors of the most intellectual type. Her patients and her graduates, whose number and position in life entitle their opinions to great weight, will all join in the highest commendations of her usefulness and her complete equipment as an instructor. She has educated the children or other relatives of most of us, and we testify to that which we know.

We, citizens of Marble Hill and Lutesville and patrons of the M.S. Academy, take great pleasure in stating to the public that, during the past school year, Miss J. R. Parke has fully sustained the high reputation with which she took charge of the M.S. Academy. She has proved herself to be a wide-awake, energetic and successful teacher, capable of surmounting difficulties and placing the M.S. Academy in the front rank of schools. We recommend our friends and acquaintances to entrust their children to her care. The citizens of Marble Hill and Lutesville will consult and promote their own interest by exerting themselves to make the two towns an educational center for Southeast Missouri.

is "Honesty is the best policy," and all who have dealt with him give evidence to this fact. His prices and toll, too, are as low as can be found anywhere.  
Mrs. L. Burk keeps a nice and inviting private boarding-house, her table spread with the delicacies of the season, and everything prepared to suit the most delicate palate.  
We visited the Marble Yard of Mr. F. Bruns, where we found a selection of choice marble and stone. Some of it had already been subjected to workman's chisel and plainly told that Mr. Bruns is well up in his trade. He is prepared to furnish tombstones or slabs of any pattern or design desirable and cheaper than can be bought elsewhere. He invites you to give him a call when in need of anything in his line.

The Stave Factory of F. A. Stanton is situated in the suburbs of Lutesville, on the bank of Crooked Creek. This factory does a good business and gives employment to several hands. We learn that machinery will be put in soon for the manufacture of wagon spokes. This will give employment to more men and also furnish a market for much timber that would otherwise go to waste.  
Last, but not least, we found Mr. E. J. Cavaness "working off" of some cards on his superior job press. The work was well done after the manner of the "Art preservative of all Arts." Mr. C. has a fine job press and does cards, envelopes, noteheads, billheads, letter-heads, statements, dodgers, circulars, posters and, in fact, all kinds of job work in the neatest possible manner and cheaper than we have ever known such work done; cheaper, by far, than you can get like work done in the city. If you should need any work in his line you should consult your own interest by giving him a bid on the job.  
There are two back lines running from this town to Marble Hill. One belongs to W. F. Cobb and meets all trains promptly. He is clever and accommodating to all, and his charges for hauling freight or passengers are very reasonable. The other line belongs to G. W. Baker. He meets all trains promptly, also, his teams are of the best and his charges of the lowest. He is ever ready to accommodate the public. In connection with his line Mr. Baker has a livery and feed stable and keeps an extra hack for the accommodation of those who may desire one.
